## Youth with a Mission - Montana

### North American Outreach

Thank you Church family for your steadfast support and prayers. We recognize that we would not be able to be on mission without you. Thank you for serving our family as we seek to make Christ known to climbers.

For the last three years, we have had the privilege of traveling to domestic climbing locations to share the Gospel and serve the local outdoor community. We traveled to five locations: Smith Rock OR, Joshua Tree National Park CA, Red Rocks NV, Moab UT, and Indian Creek UT. We had several goals for the trip:

- 1) Partnering with other Christians in the outdoors. We worked with other outdoor organizations like Climbers for Christ and Cru. We also got to pray and serve with other believers in the climbing community.
- 2) Sharing Jesus with other climbers.
- 3) Working alongside the YWAM Outdoor Ministry Program on their outreach. We helped facilitate several days of climbing as well as setting routes on several indoor climbing walls.

Many interactions with the climbing community stem from relationships and conversations that have developed year after year in these same locations. It is years of relationships that allow us to have a platform to ask deep questions and eventually share the Gospel. Climbing is simply the means for us to build authentic relationships.

## Prayer Requests

*We would love your prayers!*

**Wisdom and Grace:** We need these as we navigate parenthood.

**Health:** Winter can be a time of great merriment as well as sickness. Please pray for wellness for our family. Specifically for Elyse as she continues to get more teeth!

**Future:** Clarity as we make plans for our outreach in 2023 and God's continued favor in our relationships with climbers.
